THINK AHEAD IN CYBERSECURITY

PROVEN FEDERAL PARTNERSHIPS

Since 2006, Precise Cyber Solutions has delivered tailored cybersecurity and AI Risk Management solutions to government agencies and businesses, with a focus on mission-critical outcomes.

> 28+ Years supporting federal clients, including the House of Representatives and Department of Energy (DOE).

> Trusted Expertise in AI governance, risk mitigation, and operational resilience.

> Collaborative Success with program managers to ensure compliance and trust.

House of Representatives AI Support	Department of Energy (DOE) Y-12 Security
VALUE: Comprehensive AI Solutions	**VALUE:** Enhanced System Security
PERIOD: Recent Collaboration	**PERIOD:** Ongoing Support
Summary: Achieved approval for AI policy across approved use cases, implemented risk frameworks for 16+ products (95% of AI systems) and tested approved AI products.	**Summary:** Documented 10+ System Security Plans (SSPs) for 90% of mission-critical systems, audited 10+ partners for 100% compliance, analyzed 100+ hardware/software types for risks, and trained 10+ subcontractors for 90+ projects, reducing Y-12 security risks by 30%.

EXCELLENCE IN AI & CYBERSECURITY

> Time to Resolution: Completed risk assessments within 72 hours on average.

> Cost Savings: Saved staff hours annually through automated risk workflows.

> AI Policy Approval Rate: 100% for 16 use cases.

> Staff Training: Upskilled personnel in AI literacy.

> Risk Mitigation: Blocked high-risk AI products proactively using network monitoring tools.

> Daily Research: Identified emerging AI threats early through OWASP and industry research, enhancing client preparedness.

DELIVERING PROVEN RESULTS

Customer Challenge		Precise Cyber Solutions
AI Adoption Risks	»	Conducted NIST-based risk assessments within 72 hours, blocking high-risk AI ethically.
Data & AI Governance	»	Developed strategies covering 95% of enterprise needs, ensuring accountable AI management.
Cybersecurity Gaps	»	Delivered cloud security and incident response with 99.9% uptime for critical systems.
Workforce AI Literacy	»	Virtual AI training reducing training costs by upskilling personnel in AI literacy.
Compliance & Transparency	»	Conducted NIST-based risk assessments within 72 hours.

WHY CHOOSE US?

> **Proven Results:** Measurable success with the House of Representatives and DOE initiatives.

> **Holistic Approach:** Integrated AI policy, risk management, and training.

> **Industry Leadership:** Daily research drives proactive threat mitigation (e.g., 3 AI risks flagged).

OUR COMMITMENT

We empower clients to adopt AI responsibly and secure sensitive systems with confidence.

Contact us to elevate your cybersecurity and AI capabilities today!

CERTIFICATIONS FOR SUCCESS

NIST AI RMF Alignment
Expertise in NIST AI Risk Management Framework assessments.

CISM Certified
Proven cybersecurity leadership.

CISSP Certified
Advanced expertise in information security management.

OSCP Certified
Skilled in penetration testing and offensive security.

Small Business
Tennessee-based, agile, and client-focused.
